Portfolio

Summary

Computer Science and Engineering undergraduate specializing in Cyber Security, with hands-on experience building and deploying full-stack applications, AI-assisted product features, and DevSecOps workflows. Experienced with React and Next.js interfaces, Node.js and Spring Boot services, MongoDB and PostgreSQL, cloud deployment, and LLM integrations.

Technical Skills

Languages	Java, Python, JavaScript, TypeScript, SQL, HTML, CSS, C, C++
Development	React.js, Next.js, Spring Boot, Node.js, Express.js, Flask, REST APIs, Tailwind CSS
Data & Platforms	PostgreSQL, MongoDB Atlas, Docker, Kubernetes, Git, GitHub, Vercel, Render
AI & Security	LLM APIs, prompt engineering, RAG fundamentals, Trivy, Kubescape, kube-score

Projects

Arclume – AI Career Discovery Platform

Jul 2026

Next.js, TypeScript, Spring Boot, PostgreSQL, AI

- Building a full-stack internship and job platform with a modular Spring Boot backend, secure REST APIs, PostgreSQL, and a responsive Next.js interface.
- Designing explainable matching, resume analysis, skill-gap identification, application tracking, and personalized career guidance.

RepoScope – GitHub Developer Analytics

Jun 2026

React, TypeScript, GitHub API, REST APIs, GenAI | [Live Demo](#) | [GitHub](#)

- Built and deployed a developer analytics platform with profile and repository insights, comparisons, bookmarks, charts, and README previews.
- Added AI summaries, repository explanations, resume bullets, neutral comparisons, and resilient rate-limit and failure handling.

Self-Care Personalization App

Jun 2026

React, Node.js, Express.js, MongoDB Atlas, GenAI | [Live Demo](#) | [GitHub](#)

- Developed and deployed a MERN app for personalized exercise, skincare, and focus plans with authentication, task tracking, check-ins, points, rewards, and performance insights.
- Implemented an adaptive AI task engine with progressive questions, safety checks, and history-based adjustments.

Resume OS – Interactive Portfolio

Jun 2026

React, Vite, Tailwind CSS, Framer Motion | [Live Demo](#) | [GitHub](#)

- Created a desktop-style portfolio with recruiter-focused case studies, reusable components, animated navigation, configurable themes, and responsive layouts.
- Refined mobile routing, overflow, dock navigation, and theme behavior through iterative releases and deployment testing.

Experience

Nokia NBUC Industry Project – Student Developer, Product Security and GenAI

Apr 2025 – Oct 2025

- Collaborated with Nokia mentors and a four-member team to build a DevSecOps workflow for scanning Docker images and Kubernetes manifests and generating remediation guidance.
- Integrated Python, Flask, Trivy, Kubescape, kube-score, SBOM outputs, and an LLM assistant into CLI and web interfaces for vulnerability analysis and remediation guidance.
- Presented the solution at Nokia University Day 2025, where it won **Best Implemented Industry Project**.

Education

RNS Institute of Technology, Bengaluru

Sep 2023 – Aug 2027

B.E. in Computer Science and Engineering (Cyber Security)

CGPA: 8.87/10

Relevant coursework: Data Structures, DBMS, Computer Networks, Cyber Security, Generative AI.

Certifications

Google Cybersecurity Professional Certificate – Google, Coursera

2026

Network security, Linux, SQL, threat detection, incident response, and Python automation.

Achievements

- Won **Best Implemented Industry Project** at Nokia University Day 2025 for an AI-assisted product-security and vulnerability-remediation pipeline developed under the **Nokia Bangalore University Collaboration (NBUC)** programme.
- Qualified for and participated in the **CySecK Capture the Flag finals** conducted at the Indian Institute of Science, Bengaluru.
